## RTO Developments

We at Thrivability Training and Coaching are in the process of updating our Frontline Management offerings for the Certificate IV in Frontline Management and Diploma of Management resources to the requirements of the new BSB07 Business Services training package.

We have recently completed development of all resource materials for the Certificate IV and Diploma of Project Management. As with all our offerings we have a mining focus to our project management.

We are also developing resource materials for two Advanced Diploma MNM level units, based on client request. They are:

MNMMSM628A Establish ground control and slope stability systems.  
MNMMSM621A Establish mine water management system.

## Cover Story 2008 Offerings

Last year was a very good year for supervisor training and 2008 is shaping up to be the same. Last year Thrivability issued 25 qualifications up from 14 the previous year. Congratulations to all those who obtained qualifications last year. For customer/client convenience Thrivability Training & Coaching now produce an annual schedule of all public training courses offered. The 2008 version can be found on the front page of our website, [www.tnlc.com.au](http://www.tnlc.com.au). In addition the three boxes below show the RTO and non-RTO services that can be provided in-house and/or to individuals (private or sponsored). Of special interest to managers or HSE specialists two public risk courses will be held in 2008. They are: Training the Risk Facilitator and Risk Management Cluster for Managers. These are also available in-house if required.
