Update on Newsletter

Hi to all friends and clients of Thrivability. This is our 1st newsletter of 2007.

The newsletter is limited to one page and only produced if we have news that may benefit our friends and clients. We will continue to email newsletters for 2007.

However you are encouraged to use our access newsletters on our new website

www.tnlc.com.au

Wishing all friends and clients a happy new year

RTO Developments

Since the last newsletter Thrivability have been busy developing training resources for the Diploma of Occupational Health and Safety (BSBOHS)

The following units have been developed:

- BSBOHS501A Participate in the coordination and maintenance of a systematic approach to managing OHS
- BSBOHS502A Participate in the management of the OHS information and data systems
- BSBOHS503A Assist in the design and development of OHS participative arrangements
- BSBOHS504A Apply principles of OHS risk management
- BSBOHS505A Manage hazards in the work environment
- BSBOHS506A Monitor and facilitate the management of hazards associated with plant
- BSBOHS507A Facilitate the application of principles of occupational health to control OHS risk
- BSBOHS508A Participate in the investigation of incidents

Cover Story *In the new year...*

Thrivability Training & Coaching are introducing some exciting new training opportunities to Western Australia in 2007. They include:

- Certificate IV in Occupational Health & Safety – This will involve 4+3 days of training and is designed for OHS practitioners in the mining industry.
- Diploma of Project Management – This will involve 5+4 days of training and is designed for people managing projects in the mining industry.

Other training being offered include:

- Advanced risk management cluster – This is a five day course for Registered Mine Managers and Other Senior Mine Staff (Competency based learning [CBL] at Advanced Diploma level).
- Train the Risk Facilitator – This is a three day skills development workshop for those with risk responsibilities or interests (CBL at Diploma level).
- S1, S2, S3 cluster – Apply risk management processes, Conduct safety and health investigations, and Communicate information. This is a three day training program for Supervisors and Safety & Health Representatives. (CBL at Certificate III and IV levels).
- Open Pit Supervisors cluster – This is a development program for open pit supervisors (CBL at Certificate IV level).
- Appointed Persons Training – s44 management appointments legislative training (Only delivered in-house).
