**Certificate IV in Surface Extraction Operations (Training & Assessment Pathway) [TRSIS3]**

TNLC Thrivability Training & Coaching Pty Ltd offers the RII40115 Certificate IV in Surface Extraction Operations by the public training and assessment pathway. It is also available for private delivery on-site. The training program involves undertaking 13 units of competency. Note completion of this qualification provides direct entry into the Diploma of Surface Operations Management which can lead on the ability to obtain a WA Quarry Managers certificate of competency.

**Who should enrol?** Supervisors and step-up positions with less than 3 years supervisory experience. More experienced supervisors can also be directed to this program by their employer if they see benefits.

**Benefits for attendee:**

**Recognition** – The satisfaction that your years of hard work have been rewarded and existing and emerging skills have been recognised.

**Qualifications** – A nationally recognised qualification at the Certificate IV level in Surface Extraction Operations.

**Upward mobility** – Once the new skills have been demonstrated in practice it is likely that pathways to further career development and advancement will open.

**Benefits for employer organisation:**

**Human resources** – Improved likelihood of higher supervision retention rates.

**Human capital** – Supervision with higher technical and attitudinal competence.

**Reputation** – Seen as leaders in people development using the new RII training package.
