Advanced Diploma of Metalliferous Mining (Open cut stream) (RII60115) – RPL Pathway [TOSIS1]

TNLC Thrivability Training and Coaching is pleased to offer to the resources sector, a recognition of prior learning (RPL) services for individual units and for the full qualification titled "Advanced Diploma of Metalliferous Mining (Open Cut Metalliferous Mining Stream)".

Who should take advantage of this service?

Candidates looking to have their skills recognised may do it on a unit by unit basis or full Advanced Diploma. It is expected that candidates would have already established the specialist knowledge and skills in their chosen field. To be recognised using an RPL process the candidate will need to gather or develop evidence that covers the unit of competency performance criteria, and undertake an assessment of the required knowledge and performance evidence. For one or more units a Statement of Attainment will be issued and for a full qualification a "Record of Achievement" and the Advanced Diploma of Metalliferous Mining will be awarded. Note for selected units face to face training is available (RIIRIS601D, RIIWHS601D & RIIMEX602D).

Qualifications requirements (Packaging rules):

To get full qualification must do 14 units: 10 core and 4 electives.

Unit code	Unit title
RIIBLA602D	Establish and maintain a blasting system
RIIENV601D	Establish and maintain the environmental management system (Core)
RIIERR601D	Establish and maintain mine emergency preparedness and response systems (Core)
RIIGOV601D	Establish, maintain and develop a statutory compliance management system (Core)
RIIWHS601D	Establish and maintain the work health and safety management system (Core)
RIIRAI601D	Establish and maintain the site infrastructure and fixed plant systems (Core)
RIIRIS601D	Establish and maintain the risk management system (Core)
RIIUND602D	Establish and maintain mine services systems (Core)
RIIMEX602D	Establish and maintain surface mining ground control and slope stability systems (Core)
RIIMEX604D	Establish and maintain surface product haulage and transport systems (Core)
BSBINM601	Manage knowledge and information (BSB Elective)
BSBMGT605	Provide leadership across the organisation (BSB Elective)
BSBMGT608	Manage innovation and continuous improvement (BSB Elective)
BSBMGT616	Develop and implement strategic plans (BSB Elective)
BSBMGT617	Develop and implement a business plan (BSB Elective)
