Notes: The RII50120 requires 13 units, three of which are Core units. Our offering includes five BSB management units. One output of this process is a high-quality document containing all your evidence and a summary of the process used. This is produced by the Assessor with a copy provided to the candidate and is included in the price. The assessment for each unit will involve: (i) Sample of Own Work (or Portfolio of evidence or Training course assessment), (ii) Knowledge Evidence Assessment Tool (KEAT) activity, (iii) Performance Evidence Assessment Tool (PEAT) activity with our assessor (or a Performance Appraisal Report (PAR) by an approved site representative.). Assessor is available to come to site for final PEAT assessment (travel, meals and accommodation will have to be provided by host company) if required.
